Iacobucci HF Aerospace. Exclusive solutions for Business Jet.

December 8th, 2014 – Ferentino (FR) ITALY. Iacobucci HF Aerospace, the Italian manufacturer, leader of quality, innovative, integrated and exclusive solutions for business jet, will be at MEBA exhibition in December, Booth 520, with its successful custom made business jet seats and world best galley inserts lines which include espresso & coffee makers, trash compactors, carts and induction cooking devices.

The Italian company **Iacobucci HF Aerospace**, which develops and produces personalized & integrated cabin solutions for business jet, will participate for the third time in six years to MEBA (booth 520), an area with an increasing business jet demand where the company has built over the years a solid reputation based on its exclusive range of VIP products and its best in class customer service.

At the show, **Iacobucci HF Aerospace** will display its awarded range of **Espresso and Coffee makers** specifically designed for business aircrafts. Since 1994, the company supplies VIP customers with the best machines in the market, units with which customers can enjoy creamy Italian espresso, cappuccino and American coffee on board a jet. The single or double Espresso & Cappuccino Makers (28V and 115V variable frequency), equipped with the patented heat exchange system, are designed to be easy to use and reliable overtime. The range includes the "Americana" successful line also available with external tank or connected to aircraft water system.

MEBA 2014 represents also an opportunity for visitors and customers to find out more about the **Iacobucci HF Aerospace Gusto Oven**, the first and only certified induction oven series for business aircrafts. The patented induction system of Iacobucci HF Aerospace with its four independent layers ensure an easy yet sophisticated way to cook fresh meals on board an aircraft for an exclusive gourmet experience. In addition the unit it is safer than conventional ovens and, it can also reheat food quicker. The Iacobucci HF Aerospace induction oven has already been installed on board many private jets and represents another important step to improve the life of passengers on board an aircraft. Come for a demo of the induction oven: the on board cooking revolution in the aerospace industry.

The company seats in display at MEBA are two beautiful VIP products never shown in the region. The first one, the **Milano Single Seat**, with full shell and electromechanically operated, has been designed to enhance the passenger comfort on board: it can assume different configurations from the upright position during take-off and landing to the full flat bed during cruise. The second product in display is a **Double Mechanical Seat** of rare quality, elegance and comfort which stands out in the VIP seating market. **Iacobucci HF Aerospace** seats, in fact, have quickly achieved a top reputation in the market and that is why very important customers have already chosen its VIP seats for their private aircraft. The new certified line of VIP shell seats, based on a large business jets project recently completed, can be offered in different configurations, functions, styles and finishing. These products offer top comfort, innovative features, different optional to choose from, providing the highest level of personalization in response to customers' need and expectations. Furthermore, all information about the latest seats and divan, developed for the new **PIAGGIO Avanti EVO model**, are available at the booth.
